# North Knox Siding & Windows, LLC

MICHAEL, DEVIN., WENDY & MAKENLY

## IN THE BEGINNING...

Michael took a job hanging vinyl siding at the age of 20. Soon after that, he started what is now North Knox Siding & Windows, LLC. He continued growing his business by hanging siding himself each and every day for the next 14 years. As the company grew, Michael took on a management role where he supervised each crew and the workmanship of the jobs. He continues to manage and grow North Knox Siding & Windows, LLC.

## FAMILY

The Smith family consists of Michael, his wife, and two children that make them incredibly proud. Micheal met his beautiful wife in high school and they have been married for over 20 years strong. Their oldest son, Devin Smith,

is a recent graduate of The University of Tennessee with a Bachelor's Degree in Business Management. Their daughter, Makenly Smith, is a senior at Grace Christian Academy. After high school, she has her eyes set on pursuing a nursing career.

## MISSION STATEMENT

Our mission at North Knox Siding & Windows, LLC is to create value for our customers throughout professionally installed products that we stand by as a company.

## OUR COMMITMENT

Our commitment at North Knox Siding & Windows, LLC is to ensure excellence throughout our business, and always show respect to every individual. Honesty and dignity is a key asset to our company's foundation.

# LP SmartSide

## A DIFFERENCE YOU CAN SEE

Exposure to the elements along with everyday wear and tear can cause unsightly damage with a less durable siding. Not the case with LP® SmartSide® products. The rich cedar-grain texture of traditional wood siding combined with the advanced performance of treated engineered wood helps to extend its curb appeal for years to come.

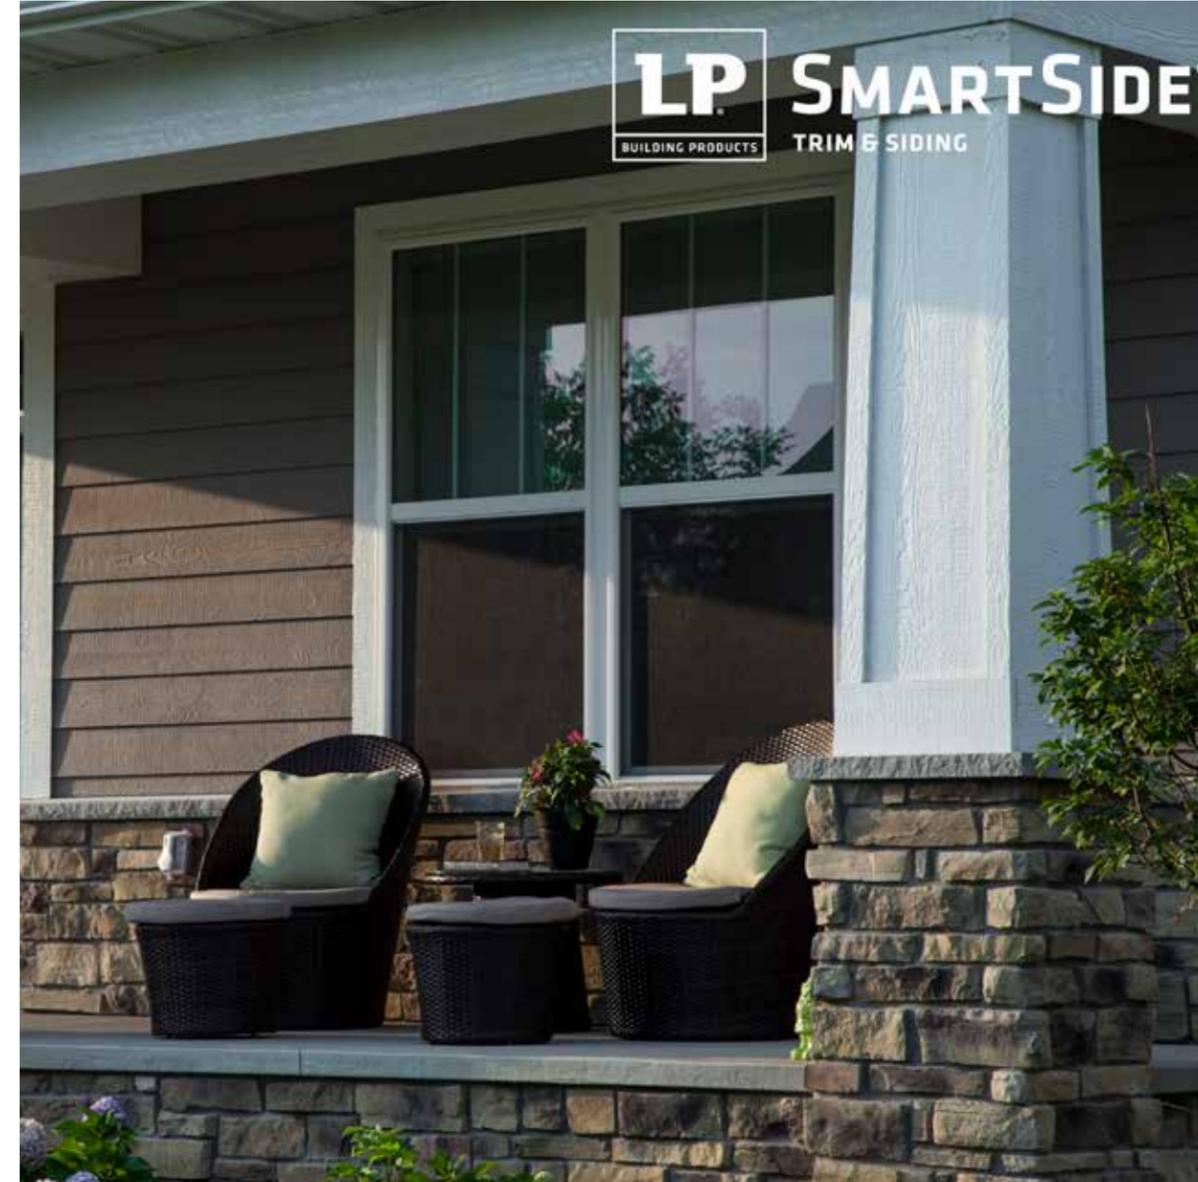

## BIG-TIME BREAK RESISTANCE

LP® SmartSide® strand products have passed third party testing that confirms outstanding impact resistance in comparison to vinyl and fiber cement siding, standing up better against everything from everyday bumps to airborne storm debris.

- A Strong Defense Against Hail
- Less Breakage for Easier Installation
- NASA Impact Damage Resistance Evaluation

## RESISTS WARPING & CRACKING FROM HEAT & SUN EXPOSURE

When well maintained, LP® SmartSide® siding has been proven to remain strong

even after prolonged exposure to intense sunlight due in part to the industrial-grade binders and resins and a durable primed overlay.

## ROT RESISTANT DESPITE MOISTER & HUMIDITY

Our Exterior Exposure Program continues to validate that LP® SmartSide® siding performs over time. Over two decades of brutal testing in Hilo, Hawaii, where the average temperature is more than 70 degrees with high levels of humidity and fungal decay due to the almost 170 inches of annual rainfall, has provided valuable data that keeps the quality and durability of LP® SmartSide® above the competition.

## DEFIES TERMITE DAMAGE

We exposed samples of LP® SmartSide® to one of the world's most destructive pests, Formosan termites. Each sample was placed on a grid, surrounded by untreated bait samples, then laid directly on top of termite colonies. The bait samples were damaged within three months. The LP® SmartSide® siding, however, exhibited no structural damage even after a number of years.

# Mill Creek

---

## ADVANCED LOCKING SYSTEM AND NAIL HEM

Precise, secure fastening, easier installation and tighter fit combine to deliver added strength and stability - even in high winds.

## .040 THICKNESS

Superior thickness and impact resistance.

## WIND SPEED RATING

Rated up to 165 mph.

## 1/2 PANEL PROJECTION

Enhanced shadow lines replicate the appearance of real wood siding.

## SUSTAINABLE FORMULA FOR VINYL SIDING

Crafted of readily available natural materials - Mill Creek vinyl siding is safe, sustainable and recyclable.

## HANG-TOUGH™ TECHNOLOGY

Exclusive formulation and process boosts durability so panels are more resistant to cracking, impact and thermal distortion.

As an added benefit, rich color resides throughout the panel - virtually eliminating the appearance of nicks and minor surface scratches

## NO PAINT, NO HASSLES

Since vinyl does not require paint or stain, harmful VOC are not released into the atmosphere.

## BREATHE EASY

Unlike some fiber cement products, vinyl siding does not produce harmful silica dust - silica dust can cause lung cancer.

## V.I.P. LIMITED LIFETIME WARRANTY

Premium guarantee of lasting quality and peace of mind (see warranty for complete details).

## STRENGTH & DURABILITY

With the look of natural cedar grain, Carvedwood combines strength, durability and great looks with affordable choices in style and grain.

## PREMIUM .044 THICKNESS

Superior thickness and impact resistance.

## WIND SPEED RATING

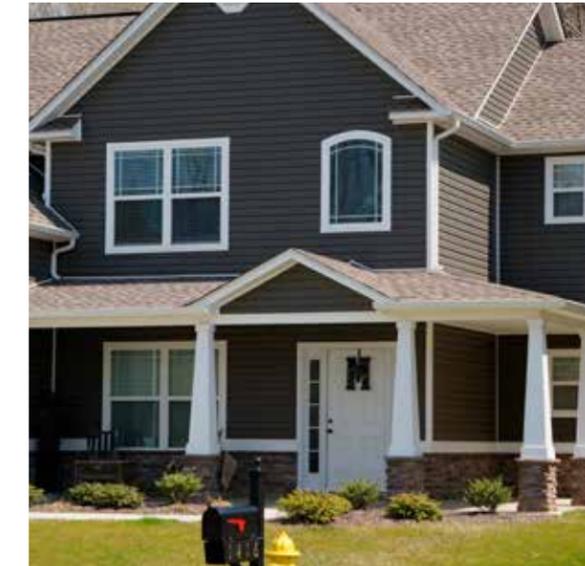

Rated up to 200 mph.

## 5/8 PANEL PROJECTION

Enhanced shadow lines replicate the appearance of real wood siding.

## SUSTAINABLE FORMULA FOR VINYL SIDING

Crafted of readily available natural materials - Carvedwood•44 vinyl siding is safe, sustainable and recyclable.

# Carvedwood

---

## HANG-TOUGH™ TECHNOLOGY

Boosts durability so panels are more resistant to cracking, impact and thermal distortion.

## NO PAINT, NO HASSLES

No need for paint or stain, so harmful VOCs aren't released into the atmosphere.

## BREATHE EASY

Cutting does not produce harmful silica dust - silica dust can cause lung disease.

## DURANYL 5000® PROTECTION SYSTEM

Protects our deepest, most vivid colors against harsh elements and maximizes long-term weatherability.

# Structure

## HOME INSULATION SYSTEM

Structure Home Insulation System is made with a premium, recycled-content vinyl siding panel permanently bonded to expanded polystyrene (EPS) foam to provide superior looks and performance over traditional vinyl siding. It delivers natural beauty, significant insulation properties and increased impact resistance in a wide-style clapboard look.

## ENERGY EFFICIENT YEAR AROUND

The Structure Home Insulation System has a thick layer of insulation that surrounds your home to keep it warm in the winter and cool in the summer as well as keeping out unwanted noise.

## SOLID CURB APPEAL

The wide range of colors and the combination of rigid foam insulation and vinyl siding gives a solid panel look and feel like traditional wood siding.

## HANG-TOUGH™ TECHNOLOGY

Exclusive formulation makes panels more resistant to cracking, thermal distortion and up to 300% more impact resistant.

## SUSTAINABLE

The vinyl panels are derived from salt and natural gas - two natural sources - and contains a minimum of 50% recycled content.

## WORRY-FREE

Structure Home Insulation System never needs painting or staining which saves you time and money year after year.

## LIFETIME WARRANTY

Our VIP Limited Lifetime Warranty covers against manufacturing defects, excessive fading and hail damage for as long as you own your home. To protect your investment, the warranty is transferable in the event you sell your home. (See warranty for details.)

## VENTURA SOFFIT & WAINSCOT

The smooth, clean profile with softly-recessed vertical lines presents an attractive, sleek look enhanced by the soft, matte finish to maximize curb appeal.

## PREMIUM .044 THICKNESS

Superior thickness and impact resistance.

## 5/8 PANEL PROJECTION

Enhanced shadow lines replicate the appearance of real wood siding.

## FASTER, EASIER CUTTING

Equals faster, easier installation

## SUSTAINABLE

Crafted of readily available natural materials - Ventura vinyl siding is safe, sustainable and recyclable.

# Ventura

## HANG-TOUGH™ TECHNOLOGY

Boosts durability so panels are more resistant to cracking, impact and thermal distortion.

## SUSTAINABLE

The vinyl panels are derived from salt and natural gas - two natural sources and contains a minimum of 50% recycled content.

## WORRY-FREE

No need for paint or stain, so harmful VOCs are not released into the atmosphere.

## BREATHE EASY

Cutting does not produce harmful silica dust - silica dust can cause lung disease.

## DURANYL 5000® PROTECTION SYSTEM

Protects our deepest, most vivid colors against harsh elements and maximizes long-term weatherability.

# Board & Batten

## BOARD & BATTEN DESIGNER SERIES

Board & Batten delivers striking style in a vertical panel and is available in a broad range of colors, including new darker hues for a contemporary look.

## WOODGRAIN APPEARANCE

Authentic woodgrain appearance replicates the look of freshly painted wood

## PREMIUM .048" THICKNESS

Tough, impact-resistant and exceptionally durable panel.

## WIND SPEED RATING

Rated up to 175 mph.

## NGBS GREEN CERTIFIED

This means you can be assured that this product complies with specific green practice criteria in the National Green Building Standard (NGBS).

# Tando

## RUSTIC CEDAR 9

Unmatched realism that requires no annual upkeep. Rustic Cedar 9 is also impervious to moisture making it perfect for roof line and ground contact applications.

## RANDOM SHINGLE PATTERN

This creates a hand-crafted look.

## RUSTIC CHARM

Homeowners love Rustic Cedar for its 9-inch exposure and rich, deep textures and grains that provide a more natural look.

## 50-YEAR PERFORMANCE PLUS WARRANTY

Tando products are backed by a 50-Year Performance Plus Warranty. We warrant to the homeowner that all Products are free from manufacturing defects in material and workmanship if installed according to our specifications. (See warranty for complete details).

# Shutters

## LOUVER SHUTTERS

Available in all popular colors and sizes as well as custom sizes, the crisp angles and lines provide a timeless look which complements all types of architecture.

## RAISED PANEL SHUTTERS

Detailed depth and simple elegance offer a handsome look that adds warmth to a range of home styles.

## BOARD & BATTEN SHUTTERS

The rich old-world character of these shutters provides a versatile traditional accent in a variety of styles, sizes and colors.

**Wide Range of Shutter Colors, Styles & Sizes**

# Windows

---

## SINGLE HUNG WINDOWS

Single hung window top sash is fixed in place and does not move or tilt in, but the bottom is operable. Since these windows are cleaned from the outside they are perfect for first floor installs.

---

## DOUBLE HUNG WINDOWS

Double Hung Windows are one of the most popular choice for homeowners. They can be operated from the bottom or top window, sliding up and down for ventilation. Double hung windows are easy to clean with sashes that tilt inward making easy access to the exterior glass. Double-Hung windows open without sticking out making these windows a great choice for rooms facing walkways, porches or patios.

---

## BAY WINDOWS

Bay Replacement Windows add a touch of Elegance, Style, and Comfort to your home. They help to cool in the summer and warm in the winter and are Energy Star compliant.

---

---

## CASEMENT WINDOWS

Casement Windows are hinged on one side and swing open like a door. They provide good ventilation and are energy efficient. Casement windows are a perfect option over counter tops, sinks or appliances.

---

## GARDEN WINDOWS

Garden Windows help to create a beautiful setting for your plants, collectibles or favorite decorations. They capture a vision of the outdoors while maintaining the inside comfort level of your home.

---

## PICTURE WINDOWS

Picture Windows are stationary, rectangular or square, non-opening windows that allow light into the room. Our Picture Windows are highly customizable in colors and shapes along with being energy efficient.

---

## SLIDER WINDOWS

Contemporary Slider Windows open horizontally sliding left or right and are easy to clean.

---

# Columns

Columns are a great way to decorate the exterior of your home or add to your home's architecture. Columns accentuate your entry door and increase the curb appeal to the front of your home.

North Knox Siding and Windows offers a large selection of premium columns made of wood, fiberglass, aluminum and Durastone in various sizes, shapes, and designs.

# Atlas Roofing

## TOUGH & DURABLE

Atlas shingles are designed to stand strong in severe weather.

## BOOST YOUR CURB APPEAL

We offer a wide selection of beautiful designer colors and styles.

## REST ASSURED

Atlas roofs are backed by quality, industry-leading warranty coverage. This includes high wind damage, black streaks caused by algae, manufacturing defects, and roofing system failure. (See warranty for details.)

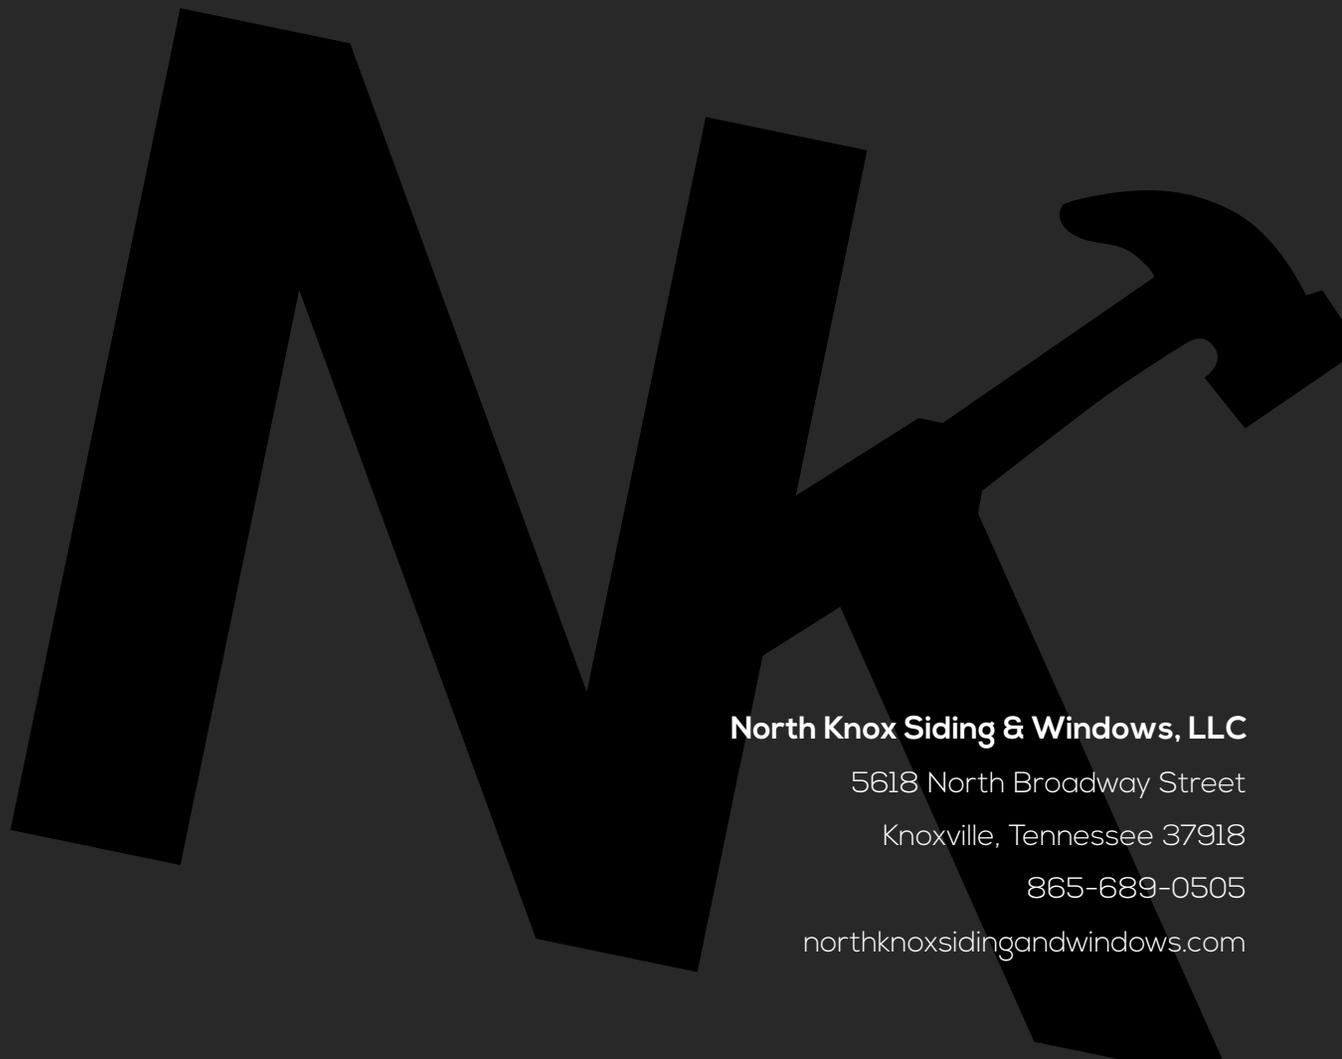

## HOME VALUE

A well-maintained, clean-looking roof helps safeguard your home's value.

## SCOTCHGARD PROTECTOR BY 3M

Scotchgard - a name you can trust to protect your roof from ugly black streaks caused by algae.
